

Love Song Charades

1. Explain to the children that you are going to play charades by acting out song lyrics that have the word *love* in them.
2. Remind the group that the actors must remain silent.
3. Whoever sings the line of the song first is the next person to act.
4. If keeping score motivates participation, you can divide the room in half and give out one point each time a charade is guessed and sung correctly.
